

## Is your firm's IT planning in need of re-design?

### MANAGED IT SERVICES FOR ARCHITECTURE FIRMS

Technology has become an indispensable tool to architectural firms. Do you know if your firm is implementing solutions that maximize your time and increase your employees work time, or are your solutions a cause of constant headaches and delayed or lost business opportunities?

The answer, more than likely, is that while your computers may be working with you, they may not be working for you. Don't you think its time to learn more about what a professionally managed technology solution, planned and implemented by a true Managed IT Services provider, can do for your firm? Transformyx has the experience and the knowledge to plan and implement a technology solution that fits your firm to an "I.T."

### A PROACTIVE IT SUPPORT SERVICE FOR YOUR FIRM

We've been working with architectural firms of all sizes for the past three years and know exactly what the needs are for hosting, backup, collaboration and project management. Your primary focus is ARCHITECTURE. If your technology is not functioning properly, or if your IT company has no planning or forward thinking with regards to your technology, it's time to call the pro's at Transformyx! We offer a best-practices approach to proactive IT support along with plans designed specifically for your needs.
